SUBJECT INDEX

A549 cells
A microcalorimetric study on human lung cancer A549 cells whose metabolism is inhibited by medicated liposome (Xie et al.) 33
Activity coefficient
Representation of mutual solubility data over a wide temperature range using a modified Wilson equation (Nagata, Miyamoto) 307
Adiabatic
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
AETA
The determination of the influence of heat treatment on the martensitic transformation in Cu–Zn–Al–Mn shape-memory alloy by calorimetry and acoustic emission techniques (Gil, Guilemany) 75
Aggregate
Thermochemical study of aqueous micellar solutions of some amphiphilic quaternary ammonium chlorides at 313 K (Różycka-Roszak, Fisicaro) 19
Alloy
The determination of the influence of heat treatment on the martensitic transformation in Cu–Zn–Al–Mn shape-memory alloy by calorimetry and acoustic emission techniques (Gil, Guilemany) 75
Alumina
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219
Aluminium hydroxide
A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191
Aluminium sulphate
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219
Investigations of thermal decomposition of aluminium sulphate by the emf method (Pelovski et al.) 283
Amine
Thermogravimetric studies of the metal complexes of polyacrylamide-supported amines: effect of the variables of macromolecular structure on thermal stability (Mathew et al.) 271
Amino acid
Thermochemistry of some metallic amino acid complexes. Part 1. Copper(II) complexes (Ribeiro da Silva et al.) 99
Thermochemistry of some metallic amino acid complexes. Part 2. Nickel(II) complexes (Ribeiro da Silva et al.) 115
Anthranilamide
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127
Atmosphere
A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225
Investigations of thermal decomposition of aluminium sulphate by the emf method (Pelovski et al.) 283

Boehmite
A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191
Butanol
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51

C_{20}
On the relative stabilities of dodecahedron-shaped and bowl-shaped structures of C_{20} (Slanina, Adamowicz) 299
Cancer
A microcalorimetric study on human lung cancer A549 cells whose metabolism is inhibited by medicated liposome (Xie et al.) 33
Carboxylato complex
Carboxylato complexes of zirconium(IV). Part 5. The thermal decomposition of difluorobis(heptafluorobutyrato)zirconium(IV) (Hall, Sutcliffe) 323

Chalcogenide
Investigations of the thermodynamic properties of zinc chalcogenides (Nasar, Shamsuddin) 157
Chelate
Thermochemistry of some metallic amino acid complexes. Part 1. Copper(II) complexes (Ribeiro da Silva et al.) 99
Thermochemistry of some metallic amino acid complexes. Part 2. Nickel(II) complexes (Ribeiro da Silva et al.) 115
Cluster
Temperature mobility of isomeric cluster equilibria: maximizing the effects in the $(CO_2)_2^-$ (g) isomeric system (Slanina) 1
Cobalt compound
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225
Conductance
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
Conductivity
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51
Copper compound
Thermochemistry of some metallic amino acid complexes. Part 1. Copper(II) complexes (Ribeiro da Silva et al.) 99
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225
Corundum
Thermodynamic properties of $NiCr_2O_4$–$NiFe_2O_4$ spinel solid solution (Park, Suito) 289
Cross link
Thermogravimetric studies of the metal complexes of polyacrylamide-supported amines: effect of the variables of macromolecular structure on thermal stability (Mathew et al.) 271
Crystallinity
A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191
Crystallization
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
The effect of some additives on the Form II to Form I phase transformation in polybutene-1 (Zhang et al.) 245

Decomposition
Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219
Investigations of thermal decomposition of aluminium sulphate by the emf method (Pelovski et al.) 283
Degradation
Characterization of chemically modified chemithermomechanical pulp by thermal analysis. Part 1. Treatment with anhydrides (Rensch, Riedl) 39
Desferal
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
Dimethyl phenyl methacrylate
Study of the isothermal bulk polymerization of dimethyl phenyl methacrylates by differential scanning calorimetry (Filipović et al.) 139
Dimethylsulphoxide
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
DMSO
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
DNA
Compatibility of mixtures of deoxyribonucleic acid with hydroxypropylcellulose in concentrated aqueous solutions (Kagemoto et al.) 179
DSC
Characterization of chemically modified chemithermomechanical pulp by thermal analysis. Part 1. Treatment with anhydrides (Rensch, Riedl) 39
Study of the isothermal bulk polymerization of dimethyl phenyl methacrylates by differential scanning calorimetry (Filipović et al.) 139
Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
The effect of some additives on the Form II

to Form I phase transformation in polybutene-1 (Zhang et al.) 245
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
The high temperature heat capacity of dysprosium(III) bromide by differential scanning calorimetry (Elsam, Preston) 319

DTA
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127
Investigations of the thermodynamic properties of zinc chalcogenides (Nasar, Shamsuddin) 157
Compatibility of mixtures of deoxyribonucleic acid with hydroxypropylcellulose in concentrated aqueous solutions (Kagemoto et al.) 179
A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191
A thermogravimetric study of flame-proofed wool (Popescu et al.) 205
Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219

DTG
The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253

Dysprosium bromide
The high temperature heat capacity of dysprosium(III) bromide by differential scanning calorimetry (Elsam, Preston) 319

EMF
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51
Investigations of thermal decomposition of aluminium sulphate by the emf. method (Pelovski et al.) 283

Enantiomer
On the relative stabilities of dodecahedron-shaped and bowl-shaped structures of C_{20} (Slanina, Adamowicz) 299

Enthalpy
Theory of a heat conduction calorimeter for scanning. Part 3. Stepwise change in the temperature of the surrounding thermal bath (Tanaka) 11
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51
The standard enthalpies of formation of hydrogen cyanide and tricyanophosphine by ab initio molecular orbital calculation (Gardner) 65
Representation of mutual solubility data over a wide temperature range using a modified Wilson equation (Nagata, Miyamoto) 307

Entropy
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51

Equation
Representation of mutual solubility data over a wide temperature range using a modified Wilson equation (Nagata, Miyamoto) 307

Equipment
A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171

Erythrocyte
A microcalorimetric study of human erythrocytes in stirred buffer suspensions (Bäckman) 87

Fireproofing
A thermogravimetric study of flame-proofed wool (Popescu et al.) 205

Flame retardant
A thermogravimetric study of flame-proofed wool (Popescu et al.) 205

FTIR
Study by electrical conductivity, derivative thermogravimetry, infrared spectrometry and X-ray photoelectron spectroscopy of oxidation process of Fe_2MoO_4 in relation to the cationic distribution (Domenichini et al.) 259

Gas
A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171

Gibbs energy
Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51
Thermodynamic properties of $NiCr_2O_4$–$NiFe_2O_4$ spinel solid solution (Park, Suito) 289

Gibbsite
A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191

Heat capacity
Theory of a heat conduction calorimeter for scanning. Part 3. Stepwise change in the temperature of the surrounding thermal bath (Tanaka) 11
Heat conduction calorimeter
Theory of a heat conduction calorimeter for scanning. Part 3. Stepwise change in the temperature of the surrounding thermal bath (Tanaka) 11
Heat of dilution
Thermochemical study of aqueous micellar solutions of some amphiphilic quaternary ammonium chlorides at 313 K (Różycka-Roszak, Fisicaro) 19
Heat of formation
The standard enthalpies of formation of hydrogen cyanide and tricyanophosphine by ab initio molecular orbital calculation (Gardner) 65
Heat of micellization
Thermochemical study of aqueous micellar solutions of some amphiphilic quaternary ammonium chlorides at 313 K (Różycka-Roszak, Fisicaro) 19
Heat of reaction
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
Heat of solution
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
Hermetic
A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171
HPC
Compatibility of mixtures of deoxyribonucleic acid with hydroxypropylcellulose in concentrated aqueous solutions (Kagemoto et al.) 179
Hydrogen cyanide
The standard enthalpies of formation of hydrogen cyanide and tricyanophosphine by ab initio molecular orbital calculation (Gardner) 65
Hydrophilic
Characterization of chemically modified chemithermomechanical pulp by thermal analysis. Part 1. Treatment with anhydrides (Rensch, Riedl) 39

IRS
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
Study by electrical conductivity, derivative thermogravimetry, infrared spectrometry and X-ray photoelectron spectroscopy of oxidation process of Fe_2MoO_4 in relation to the cationic distribution (Domenichini et al.) 259
Isomer
Temperature mobility of isomeric cluster equilibria: maximizing the effects in the $(CO_2)_2^-$ (g) isomeric system (Slanina) 1
On the relative stabilities of dodecahedron-shaped and bowl-shaped structures of C_{20} (Slanina, Adamowicz) 299
Isothermal
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
Study of the isothermal bulk polymerization of dimethyl phenyl methacrylates by differential scanning calorimetry (Filipović et al.) 139
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
Isotropic
Compatibility of mixtures of deoxyribonucleic acid with hydroxypropylcellulose in concentrated aqueous solutions (Kagemoto et al.) 179

Kinetics
Theory of a heat conduction calorimeter for scanning. Part 3. Stepwise change in the temperature of the surrounding thermal bath (Tanaka) 11
Mechanism and kinetics of the dehydration of magnesium oxalate dihydrate (Li et al.) 145
A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171
Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213

Lanthanon
Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253
Liposome
A microcalorimetric study on human lung cancer A549 cells whose metabolism is inhibited by medicated liposome (Xie et al.) 33
Liquid crystal
Compatibility of mixtures of deoxyribonucleic acid with hydroxypropylcellulose in

concentrated aqueous solutions (Kagemoto et al.) 179

Magnesium oxalate
Mechanism and kinetics of the dehydration of magnesium oxalate dihydrate (Li et al.) 145

Martensitic
The determination of the influence of heat treatment on the martensitic transformation in Cu–Zn–Al–Mn shape-memory alloy by calorimetry and acoustic emission techniques (Gil, Guilemany) 75

Micelle
Thermochemical study of aqueous micellar solutions of some amphiphilic quaternary ammonium chlorides at 313 K (Różycka-Roszak, Fisicaro) 19

Mobility
Temperature mobility of isomeric cluster equilibria: maximizing the effects in the $(CO_2)_2^-$ (g) isomeric system (Slanina) 1

Model
Theory of a heat conduction calorimeter for scanning. Part 3. Stepwise change in the temperature of the surrounding thermal bath (Tanaka) 11
Mechanism and kinetics of the dehydration of magnesium oxalate dihydrate (Li et al.) 145

Nickel compound
Thermochemistry of some metallic amino acid complexes. Part 2. Nickel(II) complexes (Ribeiro da Silva et al.) 115
Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225

Non-isothermal
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235

Nucleation
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
The effect of some additives on the Form II to Form I phase transformation in polybutene-1 (Zhang et al.) 245

Penthalate
The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225

pH
Heat of solution of Desferal at 298.15 K (D'Andrea, Fantauzzi) 5
A microcalorimetric study of human erythrocytes in stirred buffer suspensions (Bäckman) 87

Phase transition
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
The effect of some additives on the Form II to Form I phase transformation in polybutene-1 (Zhang et al.) 245

Polyacrylamide
Thermogravimetric studies of the metal complexes of polyacrylamide-supported amines: effect of the variables of macromolecular structure on thermal stability (Mathew et al.) 271

Polybutene
The effect of some additives on the Form II to Form I phase transformation in polybutene-1 (Zhang et al.) 245

Polymer
Study of the isothermal bulk polymerization of dimethyl phenyl methacrylates by differential scanning calorimetry (Filipović et al.) 139
Thermogravimetric studies of the metal complexes of polyacrylamide-supported amines: effect of the variables of macromolecular structure on thermal stability (Mathew et al.) 271

Polymerization
Study of the isothermal bulk polymerization of dimethyl phenyl methacrylates by differential scanning calorimetry (Filipović et al.) 139

Polypropylene
Effect of β-nucleator content on the crystallization and melting behaviour of β-crystalline phase polypropylene (Shi, Zhang) 235
The effect of some additives on the Form II to Form I phase transformation in polybutene-1 (Zhang et al.) 245

Potassium zirconium fluoride
A thermogravimetric study of flame-proofed wool (Popescu et al.) 205

Semiconductor
Investigations of the thermodynamic properties of zinc chalcogenides (Nasar, Shamsuddin) 157

Shape memory
The determination of the influence of heat treatment on the martensitic transformation

in Cu–Zn–Al–Mn shape-memory alloy by calorimetry and acoustic emission techniques (Gil, Guilemany) 75

Sodium iodide

Thermodynamic and conductometric studies on NaI solutions in water–*t*-butanol mixtures at 299.15 K (Bald et al.) 51

Solid

A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171

Solubility

Representation of mutual solubility data over a wide temperature range using a modified Wilson equation (Nagata, Miyamoto) 307

Spinel

Study by electrical conductivity, derivative thermogravimetry, infrared spectrometry and X-ray photoelectron spectroscopy of oxidation process of Fe_2MoO_4 in relation to the cationic distribution (Domenichini et al.) 259

Thermodynamic properties of $NiCr_2O_4$–$NiFe_2O_4$ spinel solid solution (Park, Suito) 289

Stability

Characterization of chemically modified chemithermomechanical pulp by thermal analysis. Part 1. Treatment with anhydrides (Rensch, Riedl) 39

Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213

On the relative stabilities of dodecahedron-shaped and bowl-shaped structures of C_{20} (Slanina, Adamowicz) 299

Symmetry

On the relative stabilities of dodecahedron-shaped and bowl-shaped structures of C_{20} (Slanina, Adamowicz) 299

Terfenadine

Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213

TG

A microcalorimetric study on human lung cancer A549 cells whose metabolism is inhibited by medicated liposome (Xie et al.) 33

Characterization of chemically modified chemithermomechanical pulp by thermal analysis. Part 1. Treatment with anhydrides (Rensch, Riedl) 39

Thermal, structural and electrical studies of the chloro complexes of cobalt, nickel and copper with anthranilamide (Allan et al.) 127

Mechanism and kinetics of the dehydration of magnesium oxalate dihydrate (Li et al.) 145

A system for studying gas–solid reaction kinetics in controlled atmospheres (Barbour et al.) 171

A thermogravimetric study of flame-proofed wool (Popescu et al.) 205

The thermal decomposition of aluminum sulfate in different gas phase environments (Pelovski et al.) 219

The thermal behaviour of ternary Co(II), Ni(II) and Cu(II) complexes with phthalate ion and 1,10-phenanthroline or 2,2′-dipyridylamine (Poleti, Stojaković) 225

Thermal decomposition of some dimethylsulphoxide (DMSO) lanthanide complexes (Matos et al.) 253

Thermogravimetric studies of the metal complexes of polyacrylamide-supported amines: effect of the variables of macromolecular structure on thermal stability (Mathew et al.) 271

TGA

Kinetic study of the thermal decomposition of terfenadine (Santos-Buelga et al.) 213

Thermodynamics

Temperature mobility of isomeric cluster equilibria: maximizing the effects in the $(CO_2)_2^-$ (g) isomeric system (Slanina) 1

Investigations of the thermodynamic properties of zinc chalcogenides (Nasar, Shamsuddin) 157

Transformation

A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191

Tricyanophosphine

The standard enthalpies of formation of hydrogen cyanide and tricyanophosphine by ab initio molecular orbital calculation (Gardner) 65

Wool

A thermogravimetric study of flame-proofed wool (Popescu et al.) 205

XPS

Study by electrical conductivity, derivative thermogravimetry, infrared spectrometry and X-ray photoelectron spectroscopy of oxidation process of Fe_2MoO_4 in relation to the cationic distribution (Domenichini et al.) 259

XRD

A new approach to phase transformations in gibbsite: the role of the crystallinity (Mehta et al.) 191

Zinc compound
Investigations of the thermodynamic properties of zinc chalcogenides (Nasar, Shamsuddin) 157
Zirconium compound
A thermogravimetric study of flame-proofed wool (Popescu et al.) 205
Carboxylato complexes of zirconium(IV). Part 5. The thermal decomposition of difluorobis(heptafluorobutyrato)zirconium(IV) (Hall, Sutcliffe) 323
